

## **Make Your Own Instrument of the Week!**

Welcome to our online fun craft feature! Make your own instrument of the week to use in your online Tot Bop class!

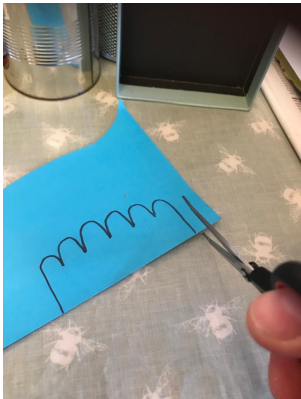

This week's instrument ... Hair Grip Frog Box!

1. Ask Mummy or Daddy for some coloured card, the lid of a box, some sticky tape, glue and scissors. This is a nice and easy one this week. You can choose your own design for your 'face' or copy ours.

Here's how you make it ...

2. Start by taping a hair grip to the back of the box lid. Open the hair grip up a little so it's nice and easy to pluck.

3. Line the inside of your box with black card and stick down with glue. Using a contrasting colour, draw and then cut out your 'teeth'.

4. Once cut out, fold over the top to make a tab and stick the tab to the inside of the top of the box.

5. Follow the same process with a different colour to make the 'eyes'. Once cut out, stick some white card or paper on top and use a black felt tip pen to draw the eyes.

6. Stick the tab of the eyes to the back of the box. Cut out another piece of card in the shape of two 'hills' and stick down on the bottom to make the 'tongue'. Add any finishing touches you wish with your black felt tip pen.

Your Hair Grip Frog Box is complete!
