

Make Your Own Instrument of

Welcome to our new fun craft feature! Make your own instrument of the week to use in your online Tot Bop class!

This week's instrument ... Clip Clop Yogurt Pots!

Here's how you make them ...

1. After you've eaten up some yummy yogurt, ask Mummy or Daddy if you can keep the pots. Save two, ideally the same size and give them a wash in warm, soapy water. Once clean make sure you thoroughly dry them.

2. Choose a colour to paint them. Don't worry if your paint goes a bit patchy after the first coat. Set them down to dry and once dry, give them another coat. They may need two or three coats until they are fully painted.

3. Once painted and dry, your clip clop yogurt pots are ready to be decorated! Have fun using stickers or fun patterns and shapes to decorate them.

Your clip clop yogurt pots are complete!
