

Make Your Own Instrument of the Week!

Welcome to our online fun craft feature! Make your own instrument of the week to use in your online Tot Bop class!

This week's instrument ... Shakey Toilet Roll Crackers!

Here's how you make them ...

1. Ask Mummy or Daddy for 2 finished toilet rolls. Cut out some tissue paper, enough to cover the toilet rolls.

2. Roll up the toilet rolls in the tissue paper and stuff the ends of the tissue paper into toilet roll on one end only. Cover with sticky tape to seal.

3. Mix up some 'shakey' ingredients in a jug. You could use rice, lentils, peppercorns ... anything that's quite hard to the touch. Pour your 'shakey mix' into the open end of your toilet roll. Stuff in the ends of the tissue paper and seal with sticky tape like you did before. Repeat this for the other roll.

4. Choose some wrapping paper for the outside of your shakey crackers. Cut enough to wrap your shaker, leaving about 3 inches at either end. Wrap the shaker leaving both ends open and hold in the middle with sticky tape.

5. Twist each end and hold with sticky tape. Finish your shakey crackers with some ribbon if you like!

Your shakey toilet roll crackers are complete!
