

Make Your Own Instrument of the Week!

Welcome to our online fun craft feature! Make your own instrument of the week to use in your online Tot Bop class!

This week's instrument ... Egg Cup Maracas!

Here's how you make them ...

1. Ask Mummy or Daddy for an empty egg box, 4 plastic spoons, some rice or beans, stickers or pipe cleaners, sticky tape and scissors.
2. Start by cutting out 4 egg cups from the box and trimming the edges so they will fit together. Fill one cup with some rice or beans and tape another cup to the first, making sure the tape seals the edges together.

3. Next, attach your spoons to either side of your egg cup maracas and tape in place, both around the egg cups and around the spoon handles.

4. Now you just need to decorate your maracas how you wish. We used pipe cleaners but you could paint yours or use stickers if you don't have pipe cleaners.

5. If using pipe cleaners, twist 4 or 5 together to make 1 big long one and then wrap them around the handles at the base of your maracas before wrapping them around the rest. Secure with sticky tape or glue.

Your Egg Cup Maracas are complete!
