

Make Your Own Instrument of the Week!

Welcome to our online fun craft feature! Make your own instrument of the week to use in your online Tot Bop class!

This week's instrument ... Bits and Bobs Drum Kit!

1. Ask Mummy or Daddy for two empty pots (we used a yogurt pot and a soup pot) and two pot or jam jar lids, some coloured card, sticky tape, a couple of hair grips (or garden wire), pipe cleaners and stickers to decorate.
2. Cover your empty pots with coloured card and use sticky tape to secure it in place.

Here's how you make it ...

3. Open up a hair grip. Bend one end and tape it to the inside of one of the jam jar lids. Tape the other end of the hair grip to the side of one of the pots.
4. Repeat with your other lid and pot, making sure one of the pots is upside down.

5. Tape the two pots together securely at top and the bottom to make your drum kit.

6. Now put the finishing touches to your drum kit with pipe cleaners around the wire of the hair grips. And decorate your drums with stickers or paint.

Your Bits and Bobs Drum Kit is complete!
